Fasten off.

SNOWFLAKE GARLAND

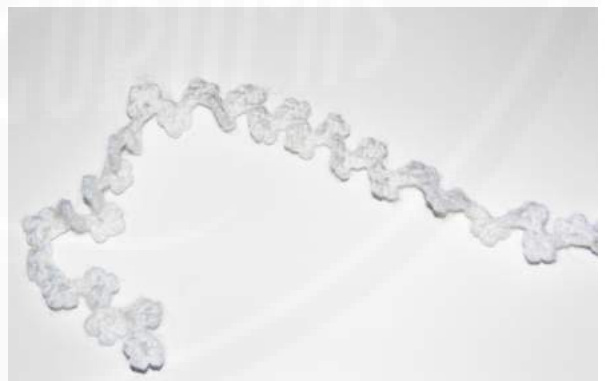

With white yarn

1. Ch 97.
2. [1 slip st and in that same st work "ch 3, 1 slip st" 3 times, 1 slip st in the next st, 1 slip st in the next st] Turn the piece and repeat the sequence between [] working in the chains to the end.

You will have crocheted 32 snowflakes.

The fact of turning the piece after each sequence is due to the fact that each snowflake is crocheted to one side and when it comes to attaching the garland to the tree, it gives it movement.

Fasten off

ASSEMBLY

Sew the **eyes** leaving 2 sc of separation from the lower narrow part of the top area, that is, on round 16. Leave 4 sc of separation between them on that round

In line in relation to the final part of the eyes, centered between them, embroider the **mouth** with black yarn, with a length of 3 sc. On it embroider a fine white line as **teeth**.

Sew the **arms** leaving 2 sc of separation from the lower narrow part of the central area, that is, on round 8.

Sew the **feet** over the beginning rows of the piece, leaving approximately 6 sc of separation from the ends.

Sew the **star** in the top of the tree. Do it in the area between the 2 points that you will place at the bottom.

Sew the **garland** around the body as seen in the images. Do it along the row of chains, leaving the snowflakes loose and trying to keep some facing up and others facing down, to give movement to the garland.

FINISHED!
WELL DONE!
